**The WHY of
Standards-
based Learning**

**NEW SBL COURSES ON
ADVENTIST LEARNING COMMUNITY**

****All other SBL courses will be
expiring soon.****

The Why of Standards Based Learning

Educators can register for this now and the course will be live in a couple of days.

Implementing Standards Based Learning in Adventist Schools

This is a 6 part series. Topic include: Standards and Scales, Unit Planning, Tracking and Goal Setting, Classroom Assessment, Figuring Grades, Exceptional Students and Communicating Grades. The first three modules of this series are up on ALC and can be started now. Examples from Adventist secondary, elementary and multigrade teachers and classrooms will be added to these 6 modules as they are recorded.

An Overview of Standards Based Learning for Multigrade

This is a series of recorded sessions from recent multi-grade in-services focused on implementing SBL in a multigrade classroom.

Teachers are advised to register for any of the following courses that they might be interested in now as they will remain on their course list even if they are no longer accepting registrations. This includes the following courses: Leading Second Order Change and PLCs, Student Facing Scales and Tracking Student Progress, Standards-based Instructional Leadership, Effective Strategies: NAST, Effective Assessment, and Improving Teacher Development in SBL.
